

Norway

my country

- I live in Norway, which is a very small country but long. I live here with about 5 million other people.
- Even though it's a very small country, it's one of the richest countries in the world because of the oil we found in 1969, in the North Sea.
- Norway is basically known for its beautiful nature like the fjords and the mountains. It's also known for the northern light, skiing and the song «What does the fox say?».
- I think Norway is a great place to live, but it's really boring since it's so tiny.
- Norway's national anthem is called «Ja, Vi elsker dette landet», In english that means «Yes, we love this country»
- **National anthem**

- A picture of a popular destination in Norway called Trolltunga (Troll tongue)

my school

- The school I go to is called Blindheim Ungdomsskole (Junior high), and I'm in 9th grade.
- There are three grades at this school; 8th grade, 9th grade and 10th grade
- There are about 350 students at my school, so It's not that big.
- The school was built in 1975 but was rebuilt the year I started.
- It's a very high tech school, with alot of fancy furnitures, smartboards and glass walls.

meeee

My name is Synnøve, I was born on the 4th of April 2000, so I'm 14 years old. I spend almost all of my sparetime to practice Baton twirling, and the rest of it I play soccer or hang out with my friends. I live with my mom, dad, my brother and my cat <3
