

# Me and my home, Norway

# Norway

# Good to know

– About Norway

- *I live in Norway, which is the longest country in Europe.*
- *We have 5 million residents*
- *We are basically known for our beautiful nature and breathtaking mountains. Our landscape was made in the ice-age, and the ice formed the fjords*
- *Norway is now one of the richest countries in the world because we found oil in the north sea in late 1960*
- *We are not very known for or music but aha and “what does the fox say” you might have heard of*
- *Our main source of income is fish and oil.*

# *My town, Aalesund*

# *Aalesund Facts*

- *The city I live in is Aalesund. For me it`s a beautiful place to visit and live*
- *Aalesund is known for the rebuildment that developed after the huge fire that burned most of our city down in 1904.. Because most of the houses were built of wood. Now most of the buildnings are in art nouveau style.*
- *Our main income comes from fishing boats.*
- *If you think to go after weather, Aalesund is not the righth place for you... Our weather is mostly gray and rainy, even though I had a GREAT summer. Almost 30 degrees all the time!*
- *The tourists mostly go after our history and nature.*

# *Blindheim secondary school*

- *The school I go to is «blindheim ungdomsskole» (in norwegian)*
- *Here are about 300 students,*
- *The school 39 years old, but it was rebuilt some years ago, so the building is very modern now.*
- *We start at 8:20 am and quit, 1:55 pm*
- *I go in class 9a with all of my friends*

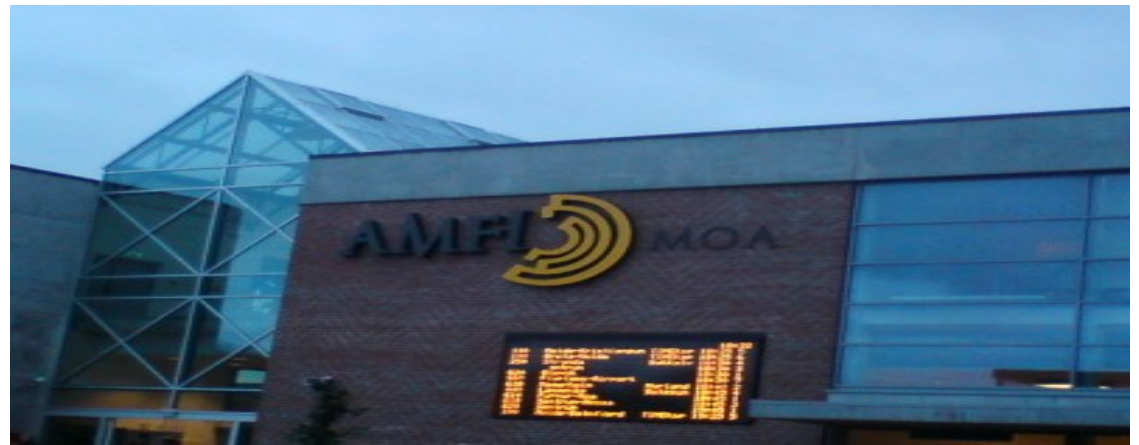

# *My opinion*

*-about Norway*

- *I like my country a lot. The nature is so breathtaking, and so pure.*
- *Its a nice place to live and visit.*
- *If I had to visit Norway as a tourist I'd been visiting Gerianger, because the fjord is so beautiful*
- *The town, Aalesund, I believe is a bit dead. Most of all the attractinons and shops are moved to MOA, our biggest shopping mall.*
