

„Why me?“

Alcohol in junior high school

What you may expect after alcohol?

- Disorders of family life - 94%**
- Problems in dealing with people - 84%**
- Financial problems - 82%**
- Violence against loved ones - 57%**
- Problems with the law (criminality) - 51%**

Want to start like this?

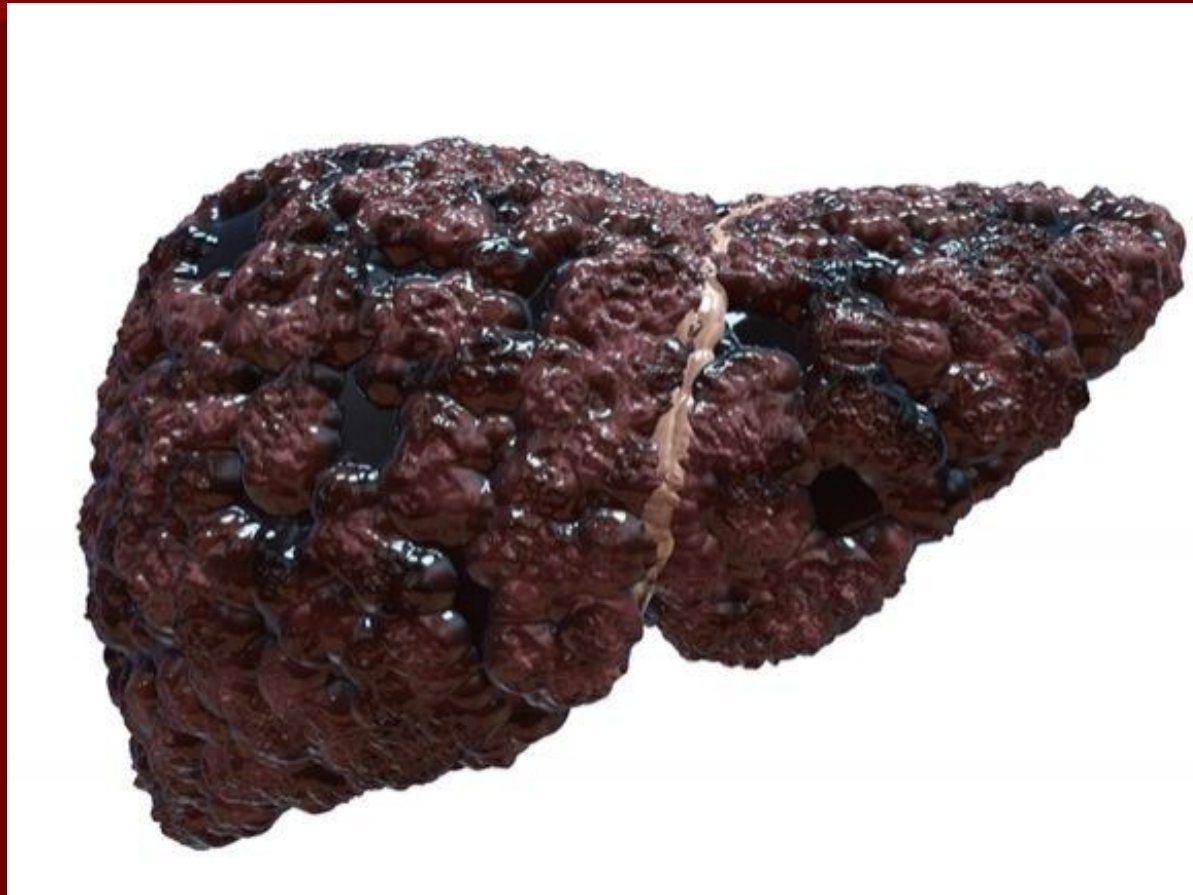

You won't be first...

As it is clear from statistical surveys carried out in the Warmia-Mazury:

- **91% students 3rd class of junior high school (89% of boys and 92% girls) have already drunk alcohol,**
- **47% of boys reached for alcohol at the age of 13 years for their first time.**

You like your liver...

...your lungs...

...your general look...

You've got clear view of reality...

Nobody tells you what to do.

WHY YOU?

WHY NOT???

Thanks for watching😊
